

Rotary Tiller

MECHANISED FARMING SOLUTIONS

STUB AXLE HOUSING
Specially designed Water Resistant Housing

MULTI SPEED GEAR BOX

APPLICATIONS

- ❖ An ideal implement for removing sugarcane stubbles in the fields. It cuts, chops and mixes back in to the soil.
- ❖ Best for weeding operation as it chops the grass, unwanted plants in the fields and mixes back into soil.
- ❖ Used in paddy fields for wet puddling.
- ❖ It is best for Trampling Sunhemp and other green manure plants / crops.
- ❖ It can be used in both Wet and Dry Cultivation.
- ❖ It ploughs, Pulverizes and levels the soil in one operation.

FEATURES

- ❖ Specially designed housing avoids water and mud entering the housing with the help of 'O' Ring.
- ❖ The Depth Skid arrangement allows you to adjust the tilling depth of the soil.
- ❖ It opens the soil upto 6 inches deep. The specially made chains for the Rotary Tiller absorbs the shock when the blade hits the soil thereby saving the implement as well as the Tractor.
- ❖ Supplied with heavy duty imported PTO Shafts & STAR Blades.
- ❖ The shear bolt arrangement in the PTO Shaft acts as a fuse when the Implement encounters overload or when the Implement encounters boulders in the soil.
